

! Please Note!

Before starting this guide, Java must first be installed. Download and install Java from the following links:

[\[Windows Download\]](#)

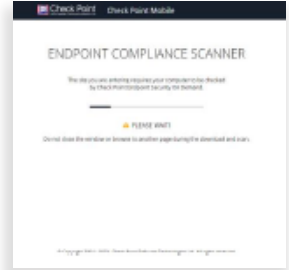

[\[MacOS Download\]](#)

Step 1

Go to <https://il-burrito.checkpoint.com> using your web browser (we recommend Chrome )

Step 2

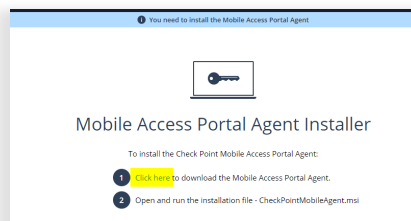

Once getting to this page, you'll be navigated to portal.il-lemon.checkpoint.com

Step 3

After a few seconds, you will be redirected to an installation page for the Mobile Access Portal Agent.

Click '**Click Here**' to download the agent installer

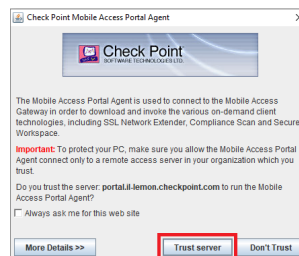

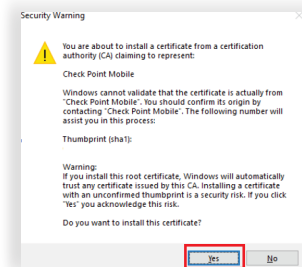

*If you are redirected to Support Center, you must first install Java.
[See the top of this guide for installation links.](#) Then restart this guide from Step 1.

Step 4

Install the **CheckPointMobileAgent.msi**

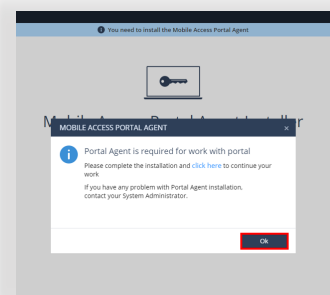

The following messages will appear, click **Yes** and **Trust Server**.

Step 5

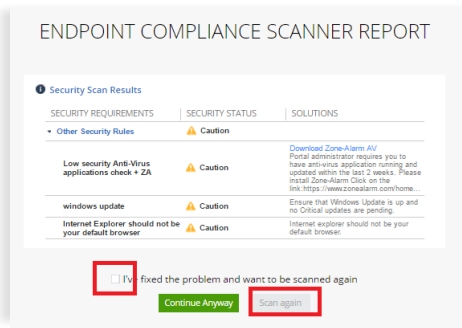

In the browser, you will be forwarded to the following page.

Click **Ok**

Step 6

If you receive Caution notifications, see the solution requirements to resolve. Check the box, and Scan Again until all issues are resolved.

That's it, You are in!
