# Principles of Network Security Course

## Table of Contents

- **Chapter 1: Security Triad**
  - Confidentiality
  - Integrity
  - Availability
- **Chapter 2: Principles of Secure Design**
  - Principles
  - Principles and Reality
- **Chapter 3: Risk Management**
  - Assets
  - Threats, Vulnerabilities, and Risk
  - Asset Value and Loss
  - Countermeasures
- **Chapter 4: Security Policies**
  - Types of Security Policies
  - Administering Security Policies
- **Chapter 5: Business Continuity Planning**
  - Business Continuity Planning
  - Business Impact Analysis
  - BCP Development
  - Testing a BCP
  - BCP Life Cycle
- **Chapter 6: Operational Security**
  - Operational Security Defined
  - Origins of OPSEC
  - Laws of OPSEC
  - Know Your Adversary
  - Intelligence Gathering
  - Physical Security
  - Administrative Controls
- **Chapter 7: Access Controls Models**
  - Confidentiality Access Control Model
  - Integrity Access Control Model
  - Access Control Models
- **Chapter 8: Communicating Security Effectively**
  - Information Technology Staff Security Communications
  - Other Staff Security Communications
  - Training
  - Management and Executive Staff Security Communications
- **Chapter 9: Security Architecture**
  - Security Architecture Theory
  - System Security Architecture
  - Secure Network Architecture

- **Chapter 10: Intrusion Detection**
  - Intrusion Defined
  - Types of Intruders
  - Intrusion Detection Concepts
  - Types of Intrusion Detection
  - Intrusion Detection Systems
- **Chapter 11: Cryptography**
  - A Brief History of Cryptography
  - How Encryption Works
  - Encryption Algorithms
  - Internet Key Exchange
- **Chapter 12: Baselineing and Penetration Testing**
  - Baselineing
  - Penetration Testing
- **Chapter 13: Access Control Technologies**
  - Authentication Methods
  - Access Control Methods
  - Access Control Technologies
  - Administering Access Control
  - Accountability
- **Chapter 14: Small-Network Security**
  - Remote Office/Branch Office
  - Remote Users
  - Small Businesses
  - Home Users
- **Chapter 15: Intranets, Extranets, and Virtual Corporations**
  - Intranets
  - Extranets
  - Virtual Corporations
- **Chapter 16: Securing the Enterprise**
  - Security Goals and Functions
